

Guided Study 1765

2A Room 123

Teacher: Mrs. Palmer

Paraprofessional: Ms Sauer-Gagnon

We are looking forward to a great year!

Course Description: This is a ½ credit course designed to give students the opportunity to gain and/or maintain competency in the content areas. Academic support will be provided for students with practice in Organization, Study Skills and Time-Management Skills. Students will be encouraged to be peer mentors.

Requirements: Students will be required to keep a Journal and a log of completed assignments. Grades will be Pass/Fail and will be determined by attendance, attitude, preparation, and participation. There will be work assigned when the student does not have work from one of their core curricular classes. Students may be given the opportunity to work either independently or as part of a group.

Class will be approximately 44 minutes long. This time will be used for completion of assignments brought in by the students or for directed practice in academic areas needing remediation. Class activities will follow VT's Framework of Standards. Assistance and clarification will be available to students as needed. Specific needs in English, Reading, Math, Science, Social Studies, Speech & Language, or CDC core classes will be addressed with individuals or small groups.

Teacher Expectations: Students are expected to know and observe the rules in the student handbook. Students should take a pro-active approach to determining their own grade by taking an active role in the learning process and by being prepared with pen/pencil and other necessary materials. Students may bring healthy snacks to class (on time of course); however, students will not be allowed to leave to get snacks.

Please bring this "Syllabus" home and show it to a parent or guardian. After discussing the requirements and expectations, please return the lower portion, signed.
(This is the first homework assignment).
